PURISORN INDRADAT

Product Manager · Product Strategy · Growth

Bangkok, Thailand · (+66) 80 598 7888 · purisorni@gmail.com

PROFESSIONAL SUMMARY

Product and growth leader with 9+ years bridging engineering, marketing, and product to ship features users love and businesses need. Proven track record owning end-to-end product roadmaps, running discovery-to-launch cycles, and driving measurable outcomes — 23% conversion lift, 2x marketing performance, 30% efficiency gain via AI automation. Fluent in data and experienced aligning cross-functional teams across engineering, design, marketing, and executive stakeholders in SaaS, e-commerce, and agency environments. Equally comfortable defining strategy and diving deep into execution.

CORE COMPETENCIES

Product Roadmap & Prioritization · Cross-functional Team Alignment (Engineering, Design, Marketing, Executives) · OKR / KPI Definition · Customer Journey Mapping · Go-to-Market Strategy · A/B Testing & Experimentation · Funnel & Conversion Optimization · AI Workflow Automation · Data-Driven Decision Making · Performance Marketing (CVR, CAC, LTV) · SEO-Led Growth · Monetization Strategy

WORK EXPERIENCE

Product & Marketing Manager · BEP Digital Agency *Bangkok, Thailand | 2020 – Present*

Led product and growth initiatives as the primary product owner for the company's digital platform — owning the roadmap, running cross-functional squads, and translating business goals into shipped features.

- Owned product vision and full-lifecycle roadmap for the agency website — scaled from a 1-page site to nearly 200 pages, driving organic growth through a structured SEO and content strategy that significantly expanded discoverability and inbound traffic.
- Built self-serve tools including a cost calculator, 1-page SEO audit tool, and advertising mockup generator to drive engagement, increase user retention, and reduce time-to-value for prospective clients.
- Shipped 5 major feature releases that drove a 23% increase in conversion rate and 22% lift in views per user (Q1 2026) by aligning engineering, design, marketing, and executive stakeholders around customer needs and defined success criteria.
- Defined and tracked OKRs and KPIs across engagement, retention, and monetization; ran structured A/B tests and synthesized results to inform roadmap decisions and stakeholder reporting.
- Reduced content production time by 30% (15 hrs/week) by identifying workflow inefficiencies and deploying AI automation pipelines across the marketing and content pipeline.
- Drove 2x improvement in digital marketing performance by translating business strategy into clear go-to-market playbooks, aligning product, brand, and content teams around a unified launch process.

Marketing Manager · Fastwork Technologies *Bangkok, Thailand | Nov 2018 – 2020*

Drove growth and retention for a regional SaaS marketplace (Thailand & Indonesia), partnering with product and engineering to optimize the full customer funnel and build the data infrastructure to support performance decisions.

- Monitored and optimized performance marketing channels against CVR, CAC, and LTV — increased qualified leads by 20%, reduced cost per lead by 25%, and lifted conversion rates by 10%.
- Queried databases to surface growth opportunities from raw transaction and user data, identifying funnel drop-off points and informing product and marketing decisions with evidence.
- Built a unified data reference layer that connected performance marketing data with the product database — enabling end-to-end funnel visibility from campaign click through to payment and retention.
- Mapped the full inquiry-to-payment funnel across two markets, identified key drop-off points, and partnered with product/engineering to ship targeted retention features.

- Led regional market expansion into Indonesia — built the marketing and operations plan and managed quarterly budgets across both markets.

Digital Marketing Manager · G-ABLE Group *Bangkok, Thailand | May 2017 – Jun 2018*

Led performance marketing across digital channels for B2B clients, managing team P&L and building scalable playbooks.

- Defined SLAs, rate cards, and performance standards across SEM, SEO, GDN, Facebook, and email; established team playbooks aligned to Google and Facebook best practices.
- Built and integrated marketing data platforms to consolidate multi-channel performance into a single reporting view — reducing analytical overhead and improving decision speed.
- Led cross-functional GTM campaigns with management, engineering, and sales; managed team P&L and identified upsell opportunities with existing clients.

Internet Marketing Analyst · aCommerce (SE Asia E-Commerce)*Bangkok, Thailand | Feb 2016 – Apr 2017*

- Delivered 7,000 leads at sub-300 CPL and achieved 1,000%+ ROI on e-commerce accounts through rigorous search campaign optimization (Quality Score, ad rank, CTR/CVR).
- Automated reporting pipeline using Google Analytics add-ons, Supermetrics, and Data Studio — cutting preparation time by 50%.
- Built bulk upload templates and AdWords Scripts for scalable campaign management; invited speaker at CONC Thammasat University on Google SME Business.

AWD Developer (Workflow & Web Apps) · International Financial Data Services (IFDS)*Bangkok, Thailand | Aug 2013 – Feb 2016*

- Built and optimized automated workflow systems (AWD) for international financial clients — defining requirements, scoping projects, and delivering to stakeholder specifications.
- Consulted with clients to gather requirements, define project scope, and implement solutions that improved cross-stakeholder communication in financial operations workflows.

EDUCATION

Bachelor of Engineering — Information & Communication Engineering *2009 – 2012*

Chulalongkorn University, International School of Engineering · GPA 3.03 · Bangkok, Thailand
